

Self-nomination form

For the election to the board of Low Carbon Gordano Limited at the AGM
on Tuesday 27 September 2016

Under LCG's rules a third of the elected directors must retire each year. This year Rob Lamoon and Ervin Bossanyi will be standing down and both have indicated that they will be standing for re-election.

All members are entitled to stand for election. If you would like more information about the role of Director please refer to the document 'AGM 2016 LCG Board member job profile' available from our website.

If you would like to be considered for this role at the AGM then please supply the following information to David Bunker, Society Secretary, Low Carbon Gordano, by email to: david.bunker@mongoose.energy

or by post to: 13/14 Orchard Street, Bristol, BS1 5EH

to arrive by Monday 5th September 2015.

NAME: MARK GALE

Please give your reasons why you want to join the Board and what skills/expertise you would bring to the team. Feel free to attach an extra sheet if needed.

I have significant experience of the community energy sector, both within co-ops (2) and Community Interest Companies (6) since 1998. I have recently been seeking out future opportunities for the community energy sector that will largely de-risk future expansion of the sector and also facilitate the direct selling of the electricity produced to local households on significantly more favourable terms, thus bringing community energy generators into their local communities in a much more tangible way. I am an active participant in "Regen SW" events where

I often offer innovative solutions.

I have been successful in introducing ~~share~~ capital ~~in~~ substantial share capital investments into a number of local developments from people who were unaware of the sectors existence.

I also see great opportunities due to our site's location adjacent to the M5 for bringing substantial additional generating capacity into community ownership, thus facilitating & enlarging our capacity to deliver our primary role, that is the "community interest" from the global (CO₂) to the local.

I gained a first class degree in 2000 from the University of the West of England in "Environmental Quality and Resource Management", concentrating in the areas of Energy, the Built Environment & Economics, after which I studied Town Planning & Building Surveying.
