

Self-nomination form

For the election to the board of Low Carbon Gordano Limited at the AGM
on Friday 21st September 2018

Under LCG's rules a third of the elected directors must retire each year. This year Paul Thurston and Rob Lamoon will be standing down and Paul Thurston has indicated that he will be standing for re-election.

All members are entitled to stand for election. If you would like more information about the role of Director please refer to the document 'AGM 2018 LCG Board member job profile' available from our website.

If you would like to be considered for this role at the AGM then please supply the following information by Wednesday 19th September 2018 to Chris Funnell, Society Secretary, Low Carbon Gordano, by email to: contact@lowcarbongordano.co.uk

or by post to: The Coach House, 2 Upper York Street, Bristol, BS2 8QN

NAME: Brian Titley

Please give your reasons why you want to join the Board and what skills/expertise you would bring to the team. Feel free to attach an extra sheet if needed.

I have been on the board of LCG since 2013, first as an elected member then as a co-optee. I am now seeking election to free-up a co-optee space on the Board.

I have been employed in Co-operative and Social Enterprises since 1985. I joined Co-operative Assistance Network (CAN) in 1999, where I have specialised in working with more than a hundred different enterprises on their financial management (projections, raising finance, recording systems and reporting), legal structures and strategic planning. I co-authored CAN's information booklet "Raising Finance for your Enterprise" and wrote the "Financing a social business" section of Business Wales' website. I am seconded to serve on the Board of several enterprises as a Finance specialist and currently serve as a Director and the Treasurer of Co-operative and Community Finance.

I have a keen interest in the community energy sector and have developed a financial model that can quickly and accurately assess financial viability of any wind or solar scheme. Also, for LCG, I have developed a model that both projects and reports clearly on

progress for all the sites and overheads consolidated to give a reliable way of both budgeting, monitoring and revisiting plans on a quarterly basis.

I worked at University of Southampton, Business Engineering Group, 1997 to 1998, researching into management needs in growth SMEs. I am a graduate of Southampton University, with a degree in Structural Engineering and am a Gold SFEDI accredited business advisor with additional social enterprise units.

SIGNED:

A handwritten signature in black ink, consisting of several overlapping loops and a horizontal line at the bottom.
